

Veterinary Surgeon– Small Animal

Job Description

Key Job Activities

As a newly qualified graduate or experienced veterinary surgeon within our team you will be responsible for providing a small animal practice to our clients. This role includes:

Regular consultations at the main Beaminster surgery in conjunction with 4 other vets

Managing and follow through your own varied and medical and surgery caseload

General soft tissue surgery

Diagnostic imaging (radiography, ultrasonography, including colour Doppler) and video endoscopy

Coming up with new ideas to improve how we do things as a practice

Helping out with client meetings and activities to promote the surgery to new and existing clients

Working collaboratively with our team of veterinary surgeons, veterinary nurses, practice manager and receptionist

Person Specification

We are looking for someone who is enthusiastic and energetic and who:

Has natural warmth and empathy and gets a genuine sense of satisfaction from helping others

Is self motivated and dedicated but has fun too

Wants to provide the very highest standard of veterinary care

Is a problem-solver

Shows natural resilience and stays calm under pressure

Remains patient, flexible and adaptable

Shows a fair degree of courage

Wants to play a role in the development of our business

Is a strong team member and is prepared to muck in and do their bit

Never stops wanting to learn and develop

Comes up with new ideas and ways of doing things

If newly qualified:

Wants to progress their surgical and medical skills

Is keen to get hands on experience with small animal practice with full coaching support

You must also be fully registered with the RCVS and eligible to work in the UK.
